-

Australian Made and owned
Honeybee wrap uses an
Antibacterial blend of ingredients.
Our reusable food wraps are made
with 100% organic cotton, natural
Australian beeswax, organic coconut
oil, tree resin and Australian jojoba oil

Did you know that cotton is the most
widely grown crop in the world?
Growing conventional cotton is also one
of the most chemical-intensive.

Our reusable beeswax wraps are
actually so green that when you are
finished with them you can put them in
your worm farm or compost bin!

Honeybee wrap is an eco-friendly alternative to plastic wrap and a fantastic food preserver. By using a beeswax wrap you are helping to reduce the 8 million tons of plastic that enters our oceans each year! One of the reason why our beeswax wraps are of the highest quality on the market is because we only use the best ingredients.

Starting with 100% certified organic cotton (GOTS certified) with low impact dyes. This means that the cotton is grown without the use of chemicals and pesticides.
